ENFORCEMENT CONFIDENTIAL / PRE-DECISIONAL

Bob - Lydia has assigned you to back me up on Gulfco. Below is a summary of what is going on and potential issues.

Gulfco Marine Maintenance

RPM: Gary Moore

Attorney: Anne Foster (Barbara Nann on Detail to Air)

Summary:

Site is in the pre-ROD stage. Proposed plan is currently out for comment. TCEQ has requested that the ROD be signed by the end of August. ROD will be signed by the end of the FY, but the August date is up in the air.

Enforcement Actions:

EPA issued GNL to three additional PRPs (BASF, American Commercial Barge, Blessey Marine) in mid-June. An offer to meet was provided to the PRPs, but no request has been received to date. It is expected that the Gulfco Restoration Group (who performed the RI/FS under a UAO) will contact these PRPs

7 104(e) Information Requests were issued on July 5, 2011 to: ConocoPhillips, Ingram Barge Line, Western Seafood, J&S Contractors, Ashland, Dupont, and Stolte Nielsen.

Anne Foster has requested that we send a revised 104(e) Information Request to Kirby. I will try to get that into concurrence before I leave.

Potential Enforcement Actions:

1. Assess 104(e) Responses with Anne Foster
2. The last Enforcement First Report was done earlier this year. One last update will be needed before issuance of Special Notice. However, I should be back to do this task.
